

Last Thursday, we were really lucky to have a return visit from two scientists from the University of Kent - an Astrophysicist and a Chemist.

They delighted our Year 4, 5 and 6 children in a 'Cool Physics' show, put on in the Main Hall, which focused on all the wonderful things that can be done with Liquid Nitrogen - every schoolboy and girl's dream! A presentation was also put on for Year 3 and their parents after school.

Here is a selection of the action in full flow. Who can you spot with their head in the clouds?! . . .

We would like to extend a special thank you to Cordelia Scott and Chrissie Rogers from The University of Kent.
