## APPENDIX 1 - USE OF CLOUD SYSTEMS PERMISSION FORM 2016/2017

New technologies are constantly emerging and in order to ensure our children get the most from these advances, it is important that we, as a school, embrace them also. This consent form describes the tools and pupil responsibilities for using cloud systems which will be used in the delivery of our Computing curriculum.

The following services are available to each pupil and hosted by Google as part of the school's online presence in Google Apps for Education:

- **Mail** - an individual email account for school use managed by the school; children can **only** send and receive emails to other members of the school. This is strictly monitored by the school.
- **Docs** - a word processing, spreadsheet, drawing, and presentation toolset that is very similar to Microsoft Office.
- **Drive** – an area to store documents and collaborate with other members of the school in real time.
- **Sites** - an individual and collaborative website creation tool.

Using these tools, pupils collaboratively create, edit and share files and websites for school related projects and communicate via email with other pupils and members of staff. These services are entirely online and available 24/7 from any Internet-connected computer including from home. Examples of student use include showcasing class projects, building an electronic portfolio of school learning experiences, and working in small groups on presentations to share with others.

Internet technologies and electronic communications provide children and young people with exciting opportunities to broaden their learning experiences and develop creativity in and out of school. However it is also important to consider the risks associated with the way these technologies can be used. Our Online Safety Policy recognises and seeks to develop the skills that children need to keep safe online and with respect for others. Online Safety is embedded within the curriculum at Sandgate Primary and teaches children to be responsible users. Parents can find more information about keeping your child [www.thinkuknow.co.uk](http://www.thinkuknow.co.uk).

The school believes that use of the tools significantly adds to your child's educational experience.

As part of the Google terms and conditions we are required to seek your permission for your child to have a Google Apps for Education account:
