

22nd March 2017

Dear Parents/Carers

As part of our Science and DT learning this term, the Year 5 pupils were asked to design a meal that an astronaut might want to have on his return to Earth after a lengthy space mission. Year 5's choice was unanimous - a healthy pizza!

Next Wednesday (29th March) we will be making the pizzas. On this day, it would be a great help if you could send your child into school with a lined baking tray (as they will be bringing their pizzas home to cook), a rolling pin and an apron (if possible). The school will provide the ingredients and equipment needed to make the pizzas from scratch.

We hope you enjoy the children's creations.

Yours sincerely
