Being SMART online

We teach our children to be SMART when online. The SMART rules are for primary aged children and contain useful 'online' safety websites and advice to help keep your child safe when using the internet and mobile devices. The SMART rules are regularly shared with the children and are displayed in every classroom and communal areas within the school. How well does your child know the SMART rules? These rules apply to all safe use of the internet whether in school or at home.

Be smart on the internet

Childnet International
www.childnet.com

S SAFE Keep safe by being careful not to give out personal information – such as your full name, email address, phone number, home address, photos or school name – to people you are chatting with online.

M MEETING Meeting someone you have only been in touch with online can be dangerous. Only do so with your parents' or carers' permission and even then only when they can be present.

A ACCEPTING Accepting emails, IM messages, or opening files, pictures or texts from people you don't know or trust can lead to problems – they may contain viruses or nasty messages!

R RELIABLE Information you find on the internet may not be true, or someone online may be lying about who they are.

t TELL Tell your parent, carer or a trusted adult if someone or something makes you feel uncomfortable or worried, or if you or someone you know is being bullied online.
You can report online abuse to the police at www.thinkuknow.co.uk

THINK U KNOW
