

21st February 2018

Dear Parents/Carers,

Science Week: Tuesday 13th March – Friday 16th March 2018

Science week is two weeks away and the theme for this year's Science week is 'Exploration and Discovery'. We will be providing the children with a range of opportunities to explore the weird and wonderful parts of Science, whilst making links to other areas of the curriculum.

As part of our exploration of Science, we would like to invite our Sandgate community to get involved with the week by allowing children to meet as many 'real-life' scientists as they can – this is where you come in! If you have a background in Science, have a job-role involved with the Sciences or know someone with a career which uses Science, please could you give some of your time to come into school to do a short talk or demonstration to a class or year group. This will be supported by the class teacher.

If you are available to spare some time, please complete the form below.

Thank you for your support,

Miss Thomas
Science Co-ordinator

Name: _____ Child's class: _____

I am free on the following dates:

- [] Tuesday 13th March
- [] Wednesday 14th March
- [] Thursday 15th March
- [] Friday 16th March

I can do a talk/demonstration about:
