

SEN

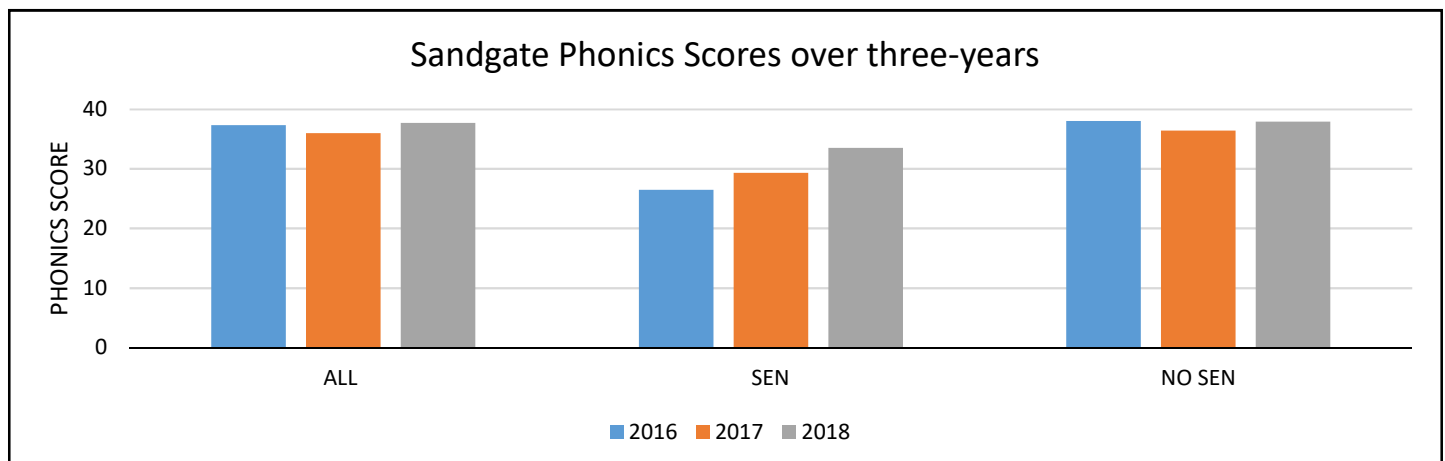

Key Stage 1 Headlines 2018 (Jo-Ann Wright)

Phonics 2018:

National Perspective - "The largest pupil characteristics attainment gap nationally is between pupils with special educational needs (SEN) and those with no identified SEN, with less than half of pupils with SEN meeting the standard (44%) and 89% of pupils with no identified SEN meeting the expected standard. The gap between these groups remained at 44 percentage points." [DfE National Statistics, 27 September 2018]

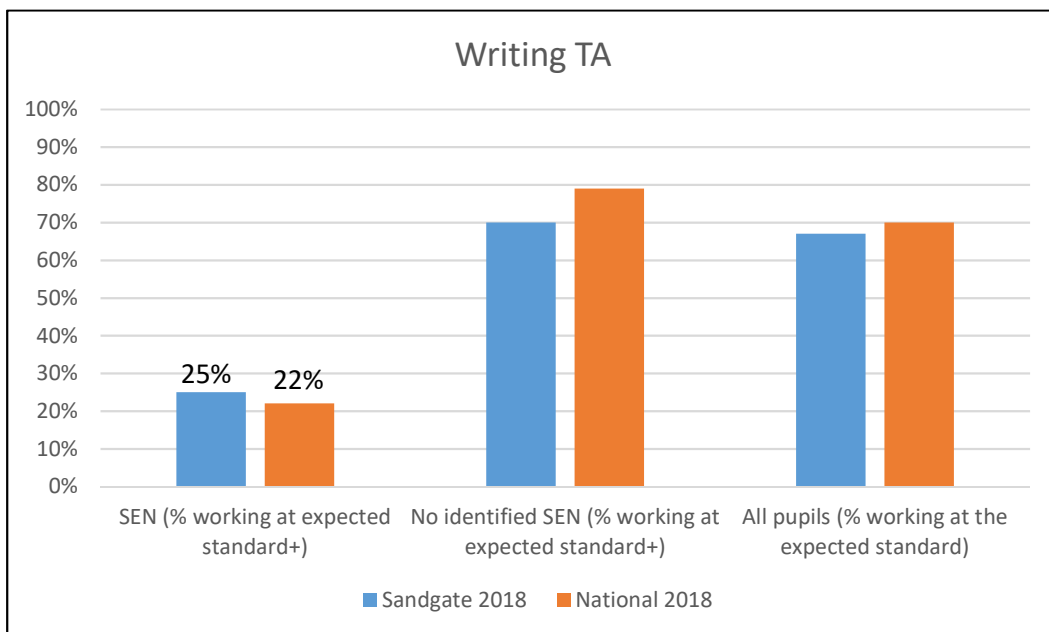

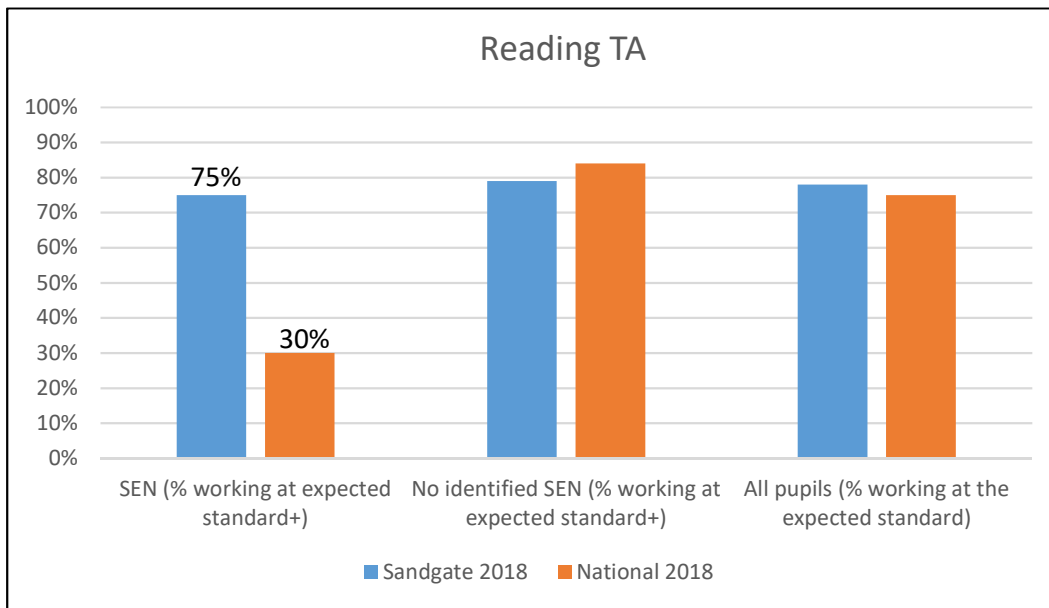

* Only two SEN pupils in this statistic. The child who failed to meet the 32+ threshold has an EHC Plan and scored 30 points on the phonics screening.

Attainment in Key Stage One Teacher Assessments by SEN Provision:

4 pupils with SEN in the 2018 Year 2 cohort:
