

# Year 3 Afternoon Learning –

Week beginning Monday 1<sup>st</sup> March 2021

This is your themed learning for RSHE:

For your learning today you will be learning about appropriate and inappropriate behaviours and how these affect us and others around us. You need to put the statements in the correct place on the table by asking yourself which is appropriate behaviour and which is inappropriate behaviour? Once you have completed this there are some questions for you to answer.

*What is appropriate and inappropriate behaviour? Can you think of any examples?*

*Appropriate behaviour is when someone behaves in a positive and kind way and tries to ensure everyone is comfortable and happy with the way they behave.*

*For example:*

*Inappropriate behaviour is acting in a way that is negative and intentionally seeks to upset someone or make them uncomfortable (by use of language or actions).*

*For example:*

**Sort these statements into the correct columns on the table:**

1. *Helping someone with their school work.*
2. *Laughing at someone unkindly.*
3. *Sharing with others.*
4. *Teasing someone until they cry.*
5. *Waiting your turn patiently.*
6. *Thanking someone who has helped you.*
7. *Paying someone a compliment.*
8. *Holding a door open for someone.*
9. *Making unkind comments about someone's appearance.*
10. *Leaving someone out of a game on purpose.*
11. *Inviting someone to join in your game.*
12. *Ignoring someone on purpose.*

<i>Appropriate Behaviour</i>	<i>Inappropriate Behaviour</i>

Using the learning from today's session and the different scenarios you have discussed, answer these questions in full sentences.

When answering the questions below - think of these questions to help you: Are you happier when someone is helping you or when someone is laughing unkindly? Do you feel better about yourself when you help others or when you are unkind to them?

1. How does behaving *inappropriately* affect you? How does it make you feel?
2. How does behaving *inappropriately* affect others? How does it make them feel?
3. How does behaving *appropriately* affect you? How does it make you feel?
4. How does behaving *appropriately* affect others? How does it make them feel?
