

Year 2's Activity Grid

Week Beginning Monday 8th February 2021

For your afternoon learning this week, please pick any of the activities below to enjoy at home. There are nine activities but you do not need to complete them all. Choose the activities that you would like to do. You also do not need to turn-in any completed learning to Google Classroom.

Create a Puppet Show

Create some puppets using paper/sticks/socks and choose one of them to be the main character from the quest story you wrote last week. Try retelling your quest story by using the puppets. You could draw your setting on a piece of paper as the background!

LOWER BODY FITNESS – STRENGTH & CO ORDINATION.

How many step-ups can you complete in 60 seconds?

- Stand in front of a step OR bottom stair if at home.
- On 'go', step up one foot at a time and then down and repeat. (Use your arms to help you).
- Don't forget to count how many steps you do in 60 seconds.
- One step is up and down.

Play Alphabet Bingo

On a piece of paper, write down all the letters in the alphabet. Then go on a hunt around your home (or when you are on a walk) and try to write down an item that begins with each letter!

Colour Walk

Before you leave your home, write down 5 different colours. When you are out, see what you can notice that is one of those colours. If you take your sheet with you, you could write them down as you go along.

Create a quiz of 10 questions for your family to answer based on your learning from this term!

You could include-

A multiplication question; questions about the continents; how to say their birthday in Spanish; you could ask them if they know which artists are famous for self-portraits...

Be sure to write it neatly so that they can read it.

Food!

If you could have a three-course meal, what would you have to eat? Design a menu for your family. Think about a starter, main course and a dessert.

Draw a picture of each of the courses. What ingredients would you need? What parts of the meal are vegetables or fruit?

Include as much information as possible.

Memory test and number fun

Ask one of your parents to write down their phone number for you. Look at the number then cover it up. Can you remember any of it?

Split the number into single digits. How many 2-digit numbers can you make? Can you order them from smallest to largest?

Write a letter to yourself to open in 20 years time:

You could do this by yourself or get your whole family to write a bit. Write a letter to yourself explaining what you are like at the moment. What kind of clothes do you like wearing? What is your favourite game? Who do you play with? Maybe write a bit about how Lockdown has changed our day-to-day life! Put it in an envelope and keep it somewhere safe!

Draw the view

Find a window in your home and look out of it. What do you notice? Draw a sketch of what you can see. Try not to rush this as it could be given to a member of your family as a present so take your time and enjoy the calmness.
