

Year 5's Activity Grid

Week Beginning Monday 8th February 2021

For your afternoon learning this week, please pick any of the activities below to enjoy at home. There are nine activities but you do not need to complete them all. Choose the activities that you would like to do. You also do not need to turn-in any completed learning to Google Classroom.

Draw a mask self-portrait, using folded A4 and some positive words.

<https://kidsactivitiesblog.com/145754/mask-self-portrait/>

Create a poster on 'Sustainability' and 'How we can all do our part to save the planet'. Include everything you already do around your home (recycling, saving water, not wasting food) and think about what larger companies could do in their part to help reduce waste and CO2 gases.

Using what we learnt about power stations can you create a 3D model? You could use waste and recycling from around the house.

Watch an episode of perfect planet (which highlights our theme of the term 'Saving Our Planet'). **Can you create a fact file** about what it told you; spectacular animals seen, tips on how to help our planet, how humans have changed the world, what is happening in the oceans...

Get reading! Read aloud to someone in your house (and to yourself). Make it your mission to complete at least one book over the week.

Design and make your own board game to play with the family. Could you base it around 'saving the planet'?

Jump forward 2 spaces: you have reused old clothes to make doll clothes...

Go back a space: you forgot to recycle your yogurt pot ...

Go for a walk down by the sea and grab a pebble or two. Paint your pebble with a nice image or an uplifting message (you can use clear nail varnish to give it a shine).

Go for a walk. What can you see, hear, smell, touch or taste? Make a list of all of the wildlife spotted. Do you spot any signs of spring?

Optional extra- to make a painting or picture, write a diary entry or map of your walk with pictures of what you saw.

Make your own kite using lots of colour and go fly it outside.
