

Our climate action vision at Sandgate Primary School:

Our vision is to ensure that all teachers and school leaders are equipped to give children and young people the knowledge and tools to understand climate change, take climate action and protect the environment.

Climate change is one of the most pressing challenges of our time, and schools play a pivotal role in shaping the next generation of environmentally conscious citizens.

By integrating sustainability into school life and education, we not only reduce our environmental footprint but also empower our pupils with the knowledge and skills to make a difference. This plan is a living document that will evolve as new opportunities, technologies, and partnerships emerge.

Sandgate Primary School recognises the need to address climate change and environmental sustainability. This Climate Action Plan outlines our commitment to reducing our environmental impact, enhancing biodiversity, and embedding sustainability into our curriculum and school culture. It aligns with the UK Government's Sustainability and Climate Change Strategy for Education, the DfE's Climate Action Plan Guidance, and Kent County Council's climate advice and information.
