Want to wait to give your child a smartphone but don't want them to be the odd one out?

You're not alone! There's a growing movement of parents across Britain who are choosing to wait to give their children smartphones, and it's simple to get involved.

The Parent Pact is a way to join together with other parents to agree to delay getting your child a smartphone until at least the end of year 9 (when they're a bit older and more able to deal with everything the online world brings).

It's all about strength in numbers – if your child knows that other kids in their class won't be getting a smartphone for a few years either, the peer pressure instantly dissolves.

It takes 30 seconds to sign the Parent Pact – and you can see how many others in your child's class, school and county have signed on the live leaderboards and connect with them via the Smartphone Free Childhood regional WhatsApp groups.
